

# Make Your Own Egyptian Hieroglyphics

First we need to make the paper look as old as possible. To make our paper look 5000 years old we are going to use TEA.

(If needed) with the help of an adult, boil a kettle to make a half cup of tea then top up with cold water. Whilst the tea is cooling place the paper on a baking tray.

When the tea is cool, pour some over the paper. Use the tea bag to dab on the paper too and squeeze the bag to get stronger tea out. Once all of the tea has been used, set it outside in the sun to dry.

Once dry, use the guide below to write whatever you want to say. Use any kind of tool to write with charcoal, pen, pencil, crayon, paint or ink.
